Creating 'The KEAK Anthology' was a journey filled with inspiration. One particularly vivid memory comes from my travels to a small village in France. On a crisp autumn morning, I wandered into a quaint little bookstore, where the elderly owner shared a rare book about a local legend. That moment sparked the idea for one of the stories in the anthology. Can you guess which one?

Exclusive Interview on 'The Price of Passion'

Tune in to my interview where I discuss the inspiration behind 'The Price of Passion,' my writing process, and some behind-the-scenes stories. It is a candid and insightful conversation that fans of the anthology will not want to miss.

I shared the inspiration behind "The Price of Passion," a novel originally conceived by my father, Artemios John Korkidis. The idea for the book emerged from his deep interest in exploring the intricate nature of human relationships within the close-knit Greek American community, particularly the conflict between personal desires and familial responsibilities.

Set in Astoria, a vibrant hub of Greek American culture, the story delves into the internal struggles of its characters, especially Peter, a restaurant owner caught between his love for a young waitress and his duty to his family. I emphasized the emotional and moral guidelines my father followed in crafting characters that are both authentic and complex, reflecting the moral ambiguities of infidelity. During the interview, I also discussed my father's last book, "Captain Nicholas Remembers," a poignant narrative about an aging Greek sea captain, and my role in preserving and translating his works to ensure his legacy endures.
