

Adventures Through Time: Discover, Imagine, Explore!

Dr. K's Book Club Newsletter

January 4th , 2025

Hello, Dear Readers!

As the new year begins, it is the perfect time to embrace fresh stories and inspiring reads to carry us through the chilly days ahead. This January, I am thrilled to share exciting updates, exclusive behind-the-scenes insights, and a glimpse of what is to come in 2025.

Whether you are captivated by time-traveling adventures, heartfelt memoirs, or historical fiction, there is something extraordinary waiting for you. Keep reading to explore sneak peeks of upcoming releases, reflections on past favorites, and a curated list of must-reads to start your year right. Let us dive into this new chapter together!

Featured Book: *Dr. K's Portal Through Time, Book 1*

✦ **Galileo's Points of Light in the Night Sky**

Step into history with Jennifer and Daniel as they travel through time to meet Galileo, uncovering the secrets of the stars and planets. This engaging children's book, perfect for ages 8-12, will ignite curiosity about science and history. **Available on Amazon and Barnes and Noble.**

Step into a world where curiosity knows no bounds! *Dr. K's Portal Through Time: Galileo's Points of Light in the Night Sky* is a magical journey blending history, science, and adventure. Follow Jennifer and her brother Daniel as they meet the legendary Galileo Galilei, exploring his groundbreaking discoveries and the cosmos through his eyes. With the help of Dr. K's time portal, the siblings witness the moons of Jupiter, marvel at Saturn's rings, and uncover the secrets of the universe, all while learning timeless lessons about resilience, curiosity, and the power of observation.

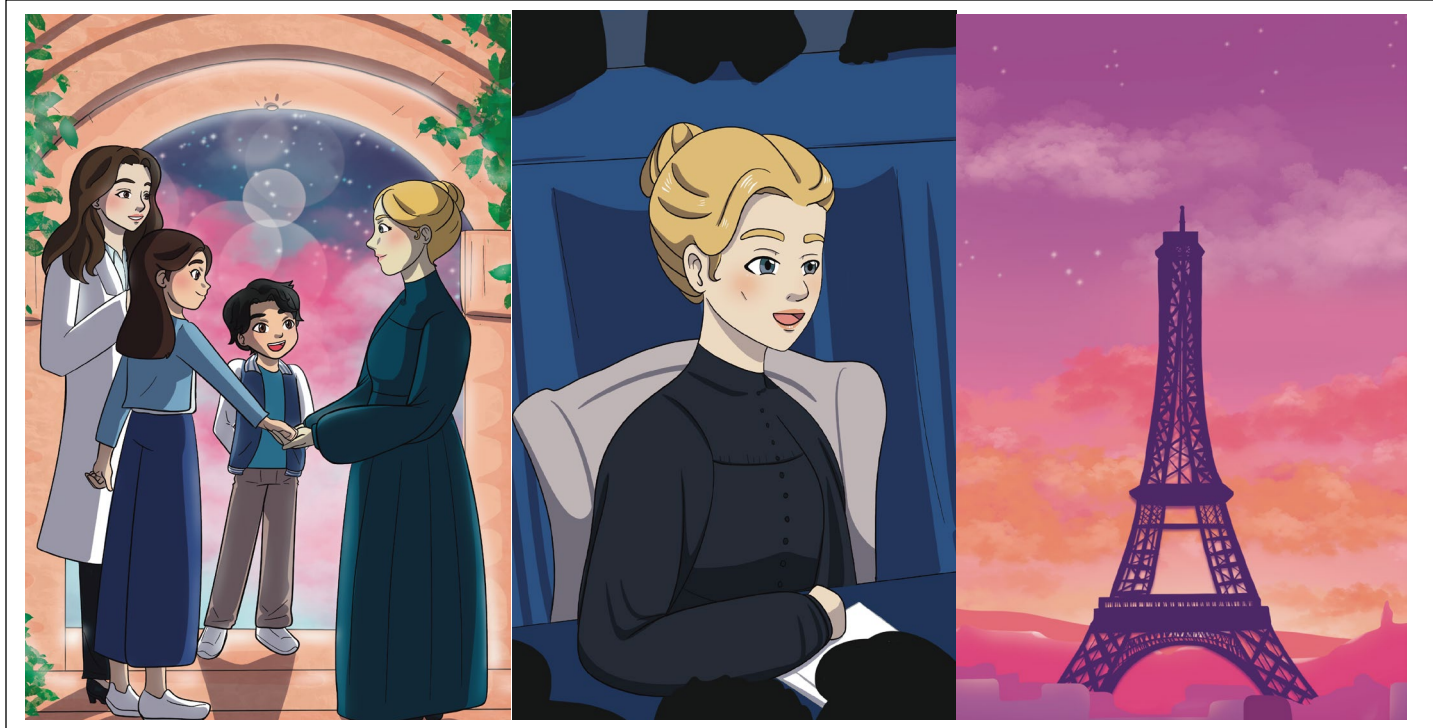

Perfect for young explorers aged 8-12, this captivating tale ignites a passion for science and history, making complex concepts like astronomy and optics come alive in an exciting and accessible way. Featuring engaging illustrations and a complementary science primer for parents and teachers, this book is more than a story, it is a gateway to discovery.

Galileo's Points of Light in the Night Sky is just the beginning of this exciting series. Look forward to more adventures with Jennifer, Daniel, and Dr. K, including *Book 2: Marie Curie's Radiant Quest*, coming in early 2025. Continue the journey through history and science, one discovery at a time!

Let your child's imagination soar beyond the stars and inspire their journey into the wonders of the universe!

Stay tuned for Book 2: *Marie Curie's Radiant Quest*—coming early 2025!

Join Jennifer, Daniel, and Dr. K as they travel through time to meet Marie Curie, the scientist who discovered the glowing power of radium! Inside her lab, they see her amazing work and learn how she won not one, but two Nobel Prizes. This thrilling adventure inspires young readers to follow their curiosity and dream big, just like Marie Curie!
